Hon. Richard McGarrah Helms
Director of the Central Intelligence Agency
Washington, D.C.

Sir,

I feel obliget to write you now and to inform you at the begining of your new position , with the hope, that this probably can help for corrections of the policy of your Agency concerning Bulgaria, because, until now allways were selected wrong people and, I believe you will agree, the result is not sufficient.

The main purpose of your Agency is to collect informations using all possible ways, but, because this informations are the ground on which USA basis its policy concerning Bulgaria it is very important from who you collect the informations.

Using communist collaborators always there is a possibility to gat tentative informations, because, the communist collaborators remain, one or the other way, all the time communist collaborators.

Using people of so called neutral circles you can gat also uncorrect informations, because, this people are looking for your money and they tell you this which you want to hear.

Using people from the National Groups, but, making them to proclaim themselves as persons who are ready to collaborate with the communists and make them break with their friends you make much more damage then benefit. Beside that, such people, never will be accepted by the communists and never will achived this which you expected from them.

Ignoring contact with the real anticommunist national groups, like it is, you never will have the possibility to see the problems from the both side and never will be correct informed, like it is now.

Inside Bulgaria only people from the national groups are ready to help your agency. Never a man who was with the national groups and break with them can have success, because he is count as traitor -like the case is with Kalin Koicheff. aka KOYCHEV

Re:

LETTER OF DR. IVAN DOCHOFF, PRESIDENT OF BULGARIAN NATIONAL FRONT OF AMERICA DATED

1966

Until now your agency work only one sided. Only with communists collaborators or such who break with the national groups and declared themselves ready to collaborate with the communists. The offered willingness to help your agency from the national groups, like you, was ignored. Not only that. With money from your agency were

and are supported persons which split the national organisations,
like our organisation.

On which honest support, against the communists, you can
count then ?

Or, maybe, communist influence found already place among
some of the men of your agency ?

Sincerely yours,
